Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-16, 32-36 and 38, drawn to a golf ball of polymer reacted with inorganic particles, classified in class 523, subclass 209.
- II. Claims 17-31 and 39, drawn to a golf ball containing an inorganic filler, classified in class 524, subclass 445.
- III. Claim 37, drawn to golf ball of polymer reacted with inorganic particles blended with other inorganic filler, classified in class 524, subclass 445.

Inventions I and III are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because there are no size or "reactive" limitations as in claim 1. The subcombination has separate utility such as a golf ball layer without inclusion of nanofiller.

Inventions II and III are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as

claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because there are no size limitations as in claim 17. The subcombination has separate utility such as a golf ball layer without inclusion of nanocomposite.

Inventions I and II are unrelated as claim 1 requires polymer, while claim 17 does not. Claim 1 requires the filler to be reactive, while claim 17 does not. The presence of claim 37 illustrates applicant does not consider "nanofillers" to be generic to "nanocomposites". The two must be distinct inventions.

A telephone call was made to Oral Calgar on 3/26/03 to request an oral election to the above restriction requirement, but did not result in an election being made.
